

CoeLux® 45 HC

Made in Italy

CoeLux artificial windows reproduce the true effect of the light and space of the outdoor. The products faithfully mimic natural sunlight, a clear blue sky and its infinite depth. One distinct "sun" bursts down into the scene through the opening, either on the ceiling or on the wall. Objects shine in the exceptional light and cast sharp and blue-toned shadows, colored by the sky. Both sun and sky are at infinite distance, as for a real-window case.

For lovers of the Mediterranean basin there is the CoeLux 45 family, featuring a 45-degree solar-elevation angle. The family guarantees an ideal balance of light and shade, thus enhancing the shapes and volumes that have flourished in outdoor architecture in the past.

The CoeLux 45 HC is designed for ceiling installations. The product offers the largest skylight among current CoeLux solutions, having an aperture of ca. 1.5 sqm (ca. 16 sqft).

Installation features

Environment of use

Indoor

Type of installation

Drop ceiling

Certified

Warranty period

2 years

Part number

COELUX®45HC_CE

Dimensional features

Device dimensions

3658 x 2274 x 950 mm (144 x 89.5 x 37.5")

Weight

300 kg (660 lb)

Sky-light size

1700 x 850 mm (67 x 33.5")

Suggested area for a unit

Up to 20 m² (215 ft²)

Lighting features

Type of source

LED (not dimmable)

Max power consumption (W)

400

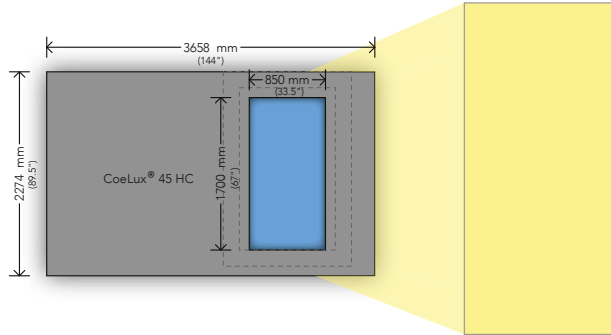

Typical power consumption (W)

350

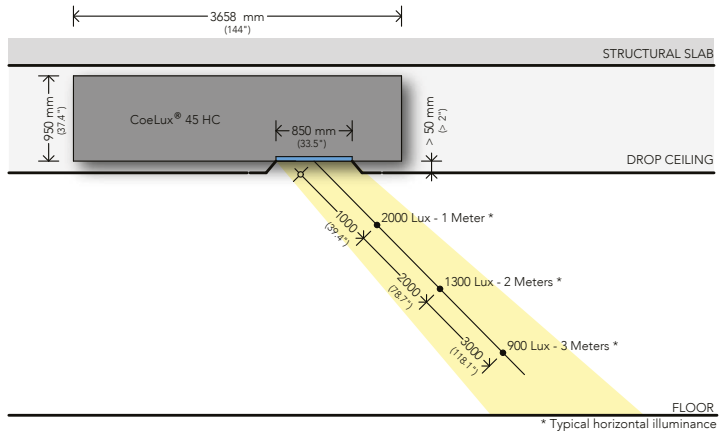

Power input

230 V~ 50/60 Hz
